## Profile

Frontend developer with a passion for creating responsive, user-friendly web applications. Proficient in HTML5, CSS3, and JavaScript, with a focus on modern frameworks like React

## Projects

**Fronted Developement:**

**E-Learning**
Crafted a professional e-learning platform website frontend by customizing a demo website template. Tailored HTML, CSS, and JavaScript to suit project requirements, ensuring seamless responsiveness and visual appeal. Delivered a polished frontend interface, leveraging template resources efficiently.

**Web-Application Developement:**

**Note manager**
Developed a dynamic note manager web application using HTML, CSS, and JavaScript. The application allows users to add, edit, delete, and search notes, providing an efficient solution for personal organization and productivity.

**Pokedex**
Developed a web application using React.js to simulate a Pokemon card game. The application allows users to play against each other by displaying Pokemon cards with images and information fetched from the Pokemon API. The game logic determines the winner based on the total experience points (EXP) of each player's hand.

**Todolist**
Created a minimalist Todo List app with React, enabling users to manage tasks efficiently. Utilized functional components, state management with hooks, and props for seamless communication between components. Incorporated CSS for styling, ensuring a clean and intuitive user interface.

## Skills

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Responsive Design: Bootstrap, Flexbox
- Frameworks/Libraries: React.js,
